For the abstract filed on 12/06/07, delete the phrase "NPGVL1:339474.1-POA-(JTG) 038486-00001" (at the bottom).

Allowable Subject Matter

1. Claims 1, 3, 5-6, 10-11, 16-18 allowed.
2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 1 is at least one unbonded cable with one end secured to the main structure by a first anchorage and the opposite end of the unbonded cable secured to a different location on the main structure by a second anchorage; an actuator resting permanently between the main structure and the unbonded cable; at least one sensor unit capable of noting measurements of physical variations on the main structure and communicating the measurements to an electronic interface which converts them into readable data accepted by a controller that controls the extension of the actuator, such that the actuator extends or retracts in order to increase or decrease, respectively, the tension of the unbonded cable in

accordance with an increase or decrease of the loading or internal forces present on the main structure. . It is these limitations found in each of the claims, as they claimed in the combination, that has not found, taught or suggested by the prior art of record which make these claims allowable over the prior art .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
